Dear Parents, Caregivers and Friends

## *School Charters and the Annual Report*

Next week I will be posting the school charter and the annual report on the website for the community to read. The charter outlines the school's overarching aims for all students and includes the mission statement, principles and values that guide all our actions and relationships.

The charter has a strategic plan, which sets out the Board's aims and directions for student progress for the next 3 years.

The annual section of the charter builds on the strategic plan but has more detail about targets for specific groups of students. This detail shows what actions the school will take to achieve its targets, who will lead these actions and timeframe.

The annual report highlights the progress that the school has made in achieving the aims and targets of the previous year. It shows how our students are progressing and describes actions that the Board will take to correct any lack of progress among groups of students

Please follow the links on the school website to view these documents. A hard copy of each document will be kept in the office for those of you who do not have internet access.
